Team Involvement in Demonstration

The **Human Development Index (HDI) Prediction Using Machine Learning**

The project was demonstrated through active participation from all team members. Each member presented their assigned module, explained its implementation, and answered questions related to their responsibilities. This collaborative approach ensured a smooth, well-organized, and successful project demonstration.

Team Involvement Table:

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	G Naveen	Team Leader	Introduction, Problem Statement, Project Overview	Introduced the project, explained objectives, coordinated the presentation, and concluded the demo.	Active
2	Chandana Busireddy	Team Member	Dataset Collection & Data Preprocessing	Explained dataset collection, data cleaning, preprocessing, and feature selection.	Active

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
3	Gandham Joshna	Team Member	Data Visualization & Analysis	Presented charts, graphs, exploratory data analysis (EDA), and insights from the dataset.	Active
4	Nandineni Gowthami	Team Member	Flask Web Application	Demonstrated the web application, explained user input, interface, and prediction workflow.	Active
5	Shaik Talha	Team Member	Machine Learning Model & Prediction	Explained model training, prediction process, model accuracy, backend integration, and answered technical questions.	Active
6	Entire Team	Team Collaboration	Question & Answer Session	Participated in the final discussion, clarified mentor queries, and supported the demonstration.	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	G Naveen coordinated the overall demonstration, assigned presentation sections, and ensured smooth communication among team members.

Aspect	Details
Overall Team Coordination Rating (1–5)	5 / 5
Any Issues During Demo	Minor presentation timing adjustments and small technical checks before running the Flask application.
How Issues Were Resolved	Team members coordinated through WhatsApp and Google Meet, verified the application in Visual Studio Code before the demonstration, and resolved issues collaboratively before presenting.
